

567—76.3(455B) Hearing. A public hearing will be held for the purpose of obtaining information regarding the particular project submitted to the state for comment in accordance with federal law. Unless known controversy exists a hearing will not be required in the following instances of referral:

76.3(1) *Noncomprehensive —nonflood control.* Projects related to water resources but not comprehensive in scope, not concerned with flood control, located in areas where no special problems exist or where local communities have given assurance of meeting federal requirements.

76.3(2) *Nonfeasible projects.* Projects which cannot be justified in accordance with federal criteria or which have not been provided with local assurances of meeting federal requirements or otherwise not given local support.

76.3(3) *Other states.* Projects proposed in other states where no material effect will result in Iowa.
